## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species: Group I, drawn to figure 1; Group II, drawn to figure 2; and Group III, drawn to figure 3. The species are independent or distinct because the invention of group 1 is drawn to a display having triangular tubular support member with a clock, writing board and sheets secured thereto. The invention of Group II is drawn to a planar support member having a hook to secure it about the top edge of a wall member or partition with the clock, writing board and sheets horizontally disposed thereon. Group III is drawn to display having vertically elongated support member with the clock, writing board, and sheets vertically disposed thereon.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement,

and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. During a telephone conversation with Glenn Gold on March 2, 2006 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-8. Affirmation of this election must be made by applicant in replying to this Office action. Claims 9-20 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an

inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### **EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Glenn Gold on March 2, 2006.

The application has been amended as follows:

Claims 9-20 have been canceled.

5. The following is an examiner's statement of reasons for allowance:  
The prior art of record does not teach nor suggest display having a triangular support having a base, rear panel, and front panel, wherein the front panel further supports a plurality of cards with a spiral member extending through the top end of the card and through the top of the front and rear panels and a clock face disposed adjacent the cards on the front

panel. Pedersen, Des. 91,541 teaches a cabinet with a writing board, calendar sheet and clock on the front panel, but does not teach a plurality of card spirally bound to the front and rear of a triangular support member. Japanese Patent 2004-425870 teaches a stack of sheets mounted to a support and a clock adjacent the sheet or within the sheets but does not teach the support being triangular and the sheet being spirally bound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cassandra Davis whose telephone number is 571-272-6642. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6651.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
